

# It's about their learning conditions

BC teachers want to find solutions now – together with government and school boards – to provide better learning conditions for our students.

That's why we're asking parents and the public for support. Teachers want to bargain for:

- **limits on class size**
- **help for kids with special needs**
- **more teacher librarians, counsellors and specialist teachers**
- **adequate resources for our classrooms**
- **and a fair and reasonable salary increase – more than the government's proposed zero over three years**

It's time to take a stand.

**KIDS MATTER. TEACHERS CARE.**
