

Petition

## DADS FOR CHILD CARE

To: Prime Minister Harper and The Government of Canada

House of Commons, Ottawa, Ontario K1A 0A6

*Whereas the children of Canada depend on us; parents, communities and country to collectively care for them,*

*And whereas many families need quality child care to ensure that parents can work to provide for their families,*

*And whereas research clearly recognizes that the first years of life are the most critical for optimum development,*

*And whereas investing in children and child care programs will produce positive short and long term economic and early childhood development benefits,*

Therefore Be It Resolved that I hereby support Bill C303, The Early Learning and Child Care Act and urge the Government of Canada to move to address the needs of Canadian families by ensuring that all children who need it, have access to quality, accessible, affordable child care.
